WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Red Flag Warning in effect through 2300 hours Thursday for abundant lightning on dry fuels.
 - Impacts: Abundant lightning on dry fuels may produce numerous new starts that pose a threat to life and property, and may overwhelm initial attack capabilities.
 - Gusty winds near thunderstorms could contribute to fire spread.
 - Despite rainfall, initial attack resources could be overwhelmed and holdover fires are possible.

SOUTHERN CALIFORNIA

- Scattered thunderstorms are expected this afternoon and early evening in the mountains and portions of the deserts.
- Somewhat greater coverage of thunderstorms along with an increase in the potential for flash flooding is expected on Thursday afternoon and early evening in the mountains and deserts, and portions of the Inland Empire.
- Drying on Friday should reduce chances for any thunderstorms near the mountains on Friday afternoon.

Weather Advisories, Watches, and Warnings currently active in California:

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

09/04/19 - 09/10/19

Today-Thursday

- Warm temperatures will continue across the state, with moderate to high heat impacts expected across Southern Region.
- Scattered thunderstorms are possible across the southern California mountains, as well as the central Sierra Mountains through Thursday.
- Elevated fire weather concerns will continue through Thursday across the inland portions of Southern Region due to warm temperatures, locally breezy conditions, and a chance of thunderstorms.
 - Dry lightning in far northern California could also lead to some new fire starts on Wednesday near the Oregon border.

Friday-Saturday

- While temperatures will cool a bit, low to moderate heat risk impacts will still be possible across the deserts of Southern Region Friday and Saturday.
- Elevated fire weather concerns will continue through Saturday across the inland portions of Southern Region due to warm temperatures and locally breezy conditions.
- Drier air will move into the state for the end of the week, significantly reducing or eliminating the threat of thunderstorms.

Sunday-Tuesday

- After a relatively dry storm passes through the state on Saturday, cooler weather will develop for the beginning of next week, with no significant weather impacts currently expected.

CALIFORNIA WEATHER IMPACTS
